Re: Proceeding: 02-278, Indiana's Telephone Privacy Law

I strongly feel that the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy Law protections. The Indiana Telephone Privacy Law has improved my time and comfort greatly at home. I used to receive approximately 10 calls per week, however, now I only receive 1 or less. I strongly ask that you would not preempt the Indiana Telephone Privacy Law.

Sincerely,

Shon Moore
